\$49.75

A RANGE WITHOUT A FAULT. For size, strength, convenience, durability and appearance, The Monarch Wingold is in a class by itself. This is not a cheaply built, loosely fitted range, made with a view of making a big show with no regard for durability. BUT A REAL HIGH GRADE RANGE which is Superior in every detail to those usually sold by dealers at \$75 to \$85. EASIEST RANGE TO KEEP CLEAN YOU EVER HAVE SEEN. All perfectly smooth surfaces, one stroke with a rag and you have a perfectly clean stove. HOURS OF TIME SAVED. No polishing or black leading. Wash the top off occasionally is all that's necessary. It's rust proof. PLENTY OF HOT WATER WHEN YOU NEED IT. The reversible reservoir gives you an abundant supply at all times. By lifting it off the right hand end and putting it on the left end next to fire box, you increase to almost an unlimited capacity. See opposite Page for further particulars.

CONCERNING OUR RELIABILITY

THERE is no risk in sending money to Wingold's. We are not a new, untried concern. For more than ten years our products have gone into hundreds of thousands of homes in Western Canada. The superior quality of our merchandise is well known, and our reputation for honest dealing is firmly established. Ask your banker or any Winnipeg banker about our reliability and you will find that we have an enviable reputation for upright dealing.

Read our guarantee, ask any of our customers that you may know about us, and you will be convinced that it will be to your advantage to choose from this catalog some of our many money-saving bargains.

DELIVERED PRICES DON'T GET STUNG

If you imagine that delivered prices as quoted by some firms is going to save you any money on freight shipments, you will be disappointed. There is no advantage in delivered prices, and often there is a disadvantage as you are helping to pay charges on goods for some fellow who lives a hundred miles beyond you. **PAY YOUR OWN FREIGHT** and then you know just what your merchandise costs you. **THERE ARE NO SPECIAL PRIVILEGES.** The freight rates are same to you as to the biggest shipper in Canada. There are very few points where the same rate applies, instead of making a saving you are more liable to increase your costs because the firm who makes delivered prices must take the highest rate to protect themselves.

This Guarantee Protects You

Here is the Guarantee which makes every penny you send us as safe as if it were in your own hands.

We Guarantee Every Article in this Catalog to be exactly as described and illustrated. We guarantee that any article ordered from us will please you, and that it will give you the service you have a right to expect; that it represents full value for the price you pay.

If for any reason you are dissatisfied with any article you receive from us, you are at liberty to return it at our expense.

We will then exchange it for exactly what you want, or will return your money, including transportation charges paid by you.

THE WINGOLD CO., LIMITED

Remittances

SEND a Bank Money Order or Post Office Money Order or send the cash by Registered Letter. Do not send Personal Cheques unless you add 25 cents to cover the cost of exchange.

C. O. D. Shipments

ANY article listed in this catalog will be sent C.O.D. subject to examination if a deposit of 25 per cent. of the catalog price accompanies the order.

30 Days Trial

30 Days use of any article you buy is the best proof of our confidence in Wingold Products. Our willingness to accept the risk ought to convince you that our merchandise is everything we claim it to be.

The Monarch Wingold Blue Polished Steel Range

(See Illustration Opposite)

THIS MAGNIFICENT STRICTLY MODERN RANGE IS BUILT FOR THOSE WHO WANT THE BEST. IT LABOR SAVING AND FUEL SAVING MEANS ANYTHING TO YOU, FOLLOW THE ARROWS TO EACH DISTINGUISHING FEATURE OF THE MONARCH WINGOLD AND YOU WILL QUICKLY REALIZE THAT IT IS THE MOST UP-TO-DATE STEEL RANGE MADE. IF YOU INTEND TO PAY \$35 OR \$40 FOR A RANGE WE ADVISE YOU BY ALL MEANS TO GO A TRIFLE HIGHER AND GET THE MONARCH WINGOLD. THIS RANGE IS NOT ONLY CONVENIENT AND HANDSOME BUT IT IS STRONGLY BUILT TO WITHSTAND THE HARDEST KIND OF USAGE.

Every detail has been carefully worked out; every known practical improvement has been combined in the building of The MONARCH WINGOLD to make it the most durable, the most convenient, the handsomest in appearance, and the most economical in the consumption of fuel of any steel range on the market today.

CONSIDER WELL ITS ADVANTAGES, then the price, then our 90-day preliminary test. Then send us your order. The results you will obtain from its use will make you a lasting friend of Wingold products and Wingold methods.

The Body is made of heavy blue polished steel, requires no polishing or black leading, is closely boiler rivetted. Simply wipe the body over with an oily rag occasionally and it will retain its beautiful blue lustre. Extra heavy nickelled legs support the body, raising it about five inches above the floor.

Cooking Top is full polished and annealed to prevent rusting. Has six nine-inch lids (one section lid furnished free), lift up anchor plate for broiling or toasting and putting in fuel. No black leading or polishing is required.

Reversible Copper Reservoir capacity 12 gallons, furnishes plenty of hot water. Can be instantly changed from one end to the other. This enables you to place your range in the most convenient place in your kitchen. When an unusual quantity of hot water is needed, place the reservoir on the end nearest fire box. Full nickelled End Shelf, fitted with Towel Rod.

Full Nickelled Drop High Closet Door This is the latest thing in high closet construction. The door drops downward forming a wide shelf large enough to accommodate largest platters. Swing Teapot Stands or brackets, blue steel body, trimming all smoothly silver nickelled and polished.

The Wood Feed Door is extra large, will accommodate large size stick. It is lined to prevent ashes piling inside and falling on the floor; smoothly nickelled.

PUT THE "MONARCH WINGOLD" THROUGH EVERY KIND OF TEST YOU CAN THINK OF FOR NINETY DAYS

Put a Monarch Wingold through every kind of test you can think of for 90 days; if you are not convinced that its is the greatest value you have ever seen and if it does not more than fulfill every requirement, and if you are not satisfied that you have made a substantial saving in cost to you, return the range to us and get back every dollar you paid, plus freight charges one way.

EXTRA HEAVY SMOOTH NICKELLED TRIMMINGS, COMPLETE WITH OVEN THERMOMETER. FURNISHED WITH TILED HIGH CLOSET BACK, \$4.25 EXTRA.

Ash Pit Door is high and wide and fitted with screw draft. smooth pattern, highly polished nickel. Ash Pan is large, stoutly bailed.

The Fire Box The life of a steel range depends to a great extent upon the size, style of construction and ventilation of the fire box. It is this part of the Monarch Wingold Range that our experts have given the most careful consideration. We claim a perfect fire box, one that is large enough to burn all kinds of fuel, heavy enough in weight to give it durability and economical with fuel. When end linings are removed it takes a 24-inch stick. This range will burn hard coal and bake perfectly.

Duplex Grates Extra heavy, will not warp or burn out. Instantly changed from wood to coal or vice versa.

Oven A great big high oven, full 20 inches square, 14 inches high; a perfect baker with any kind of fuel. Results absolutely guaranteed. Extra strong oven door fitted with double catches, stout hinged and spring balanced. Full nickelled frame and fitted with safety stops, nickelled medallion, equipped with oven thermometer.

Combination Damper and Check Draft in first length of pipe gives you perfect control of the fire at all times.

Joffre Wingold

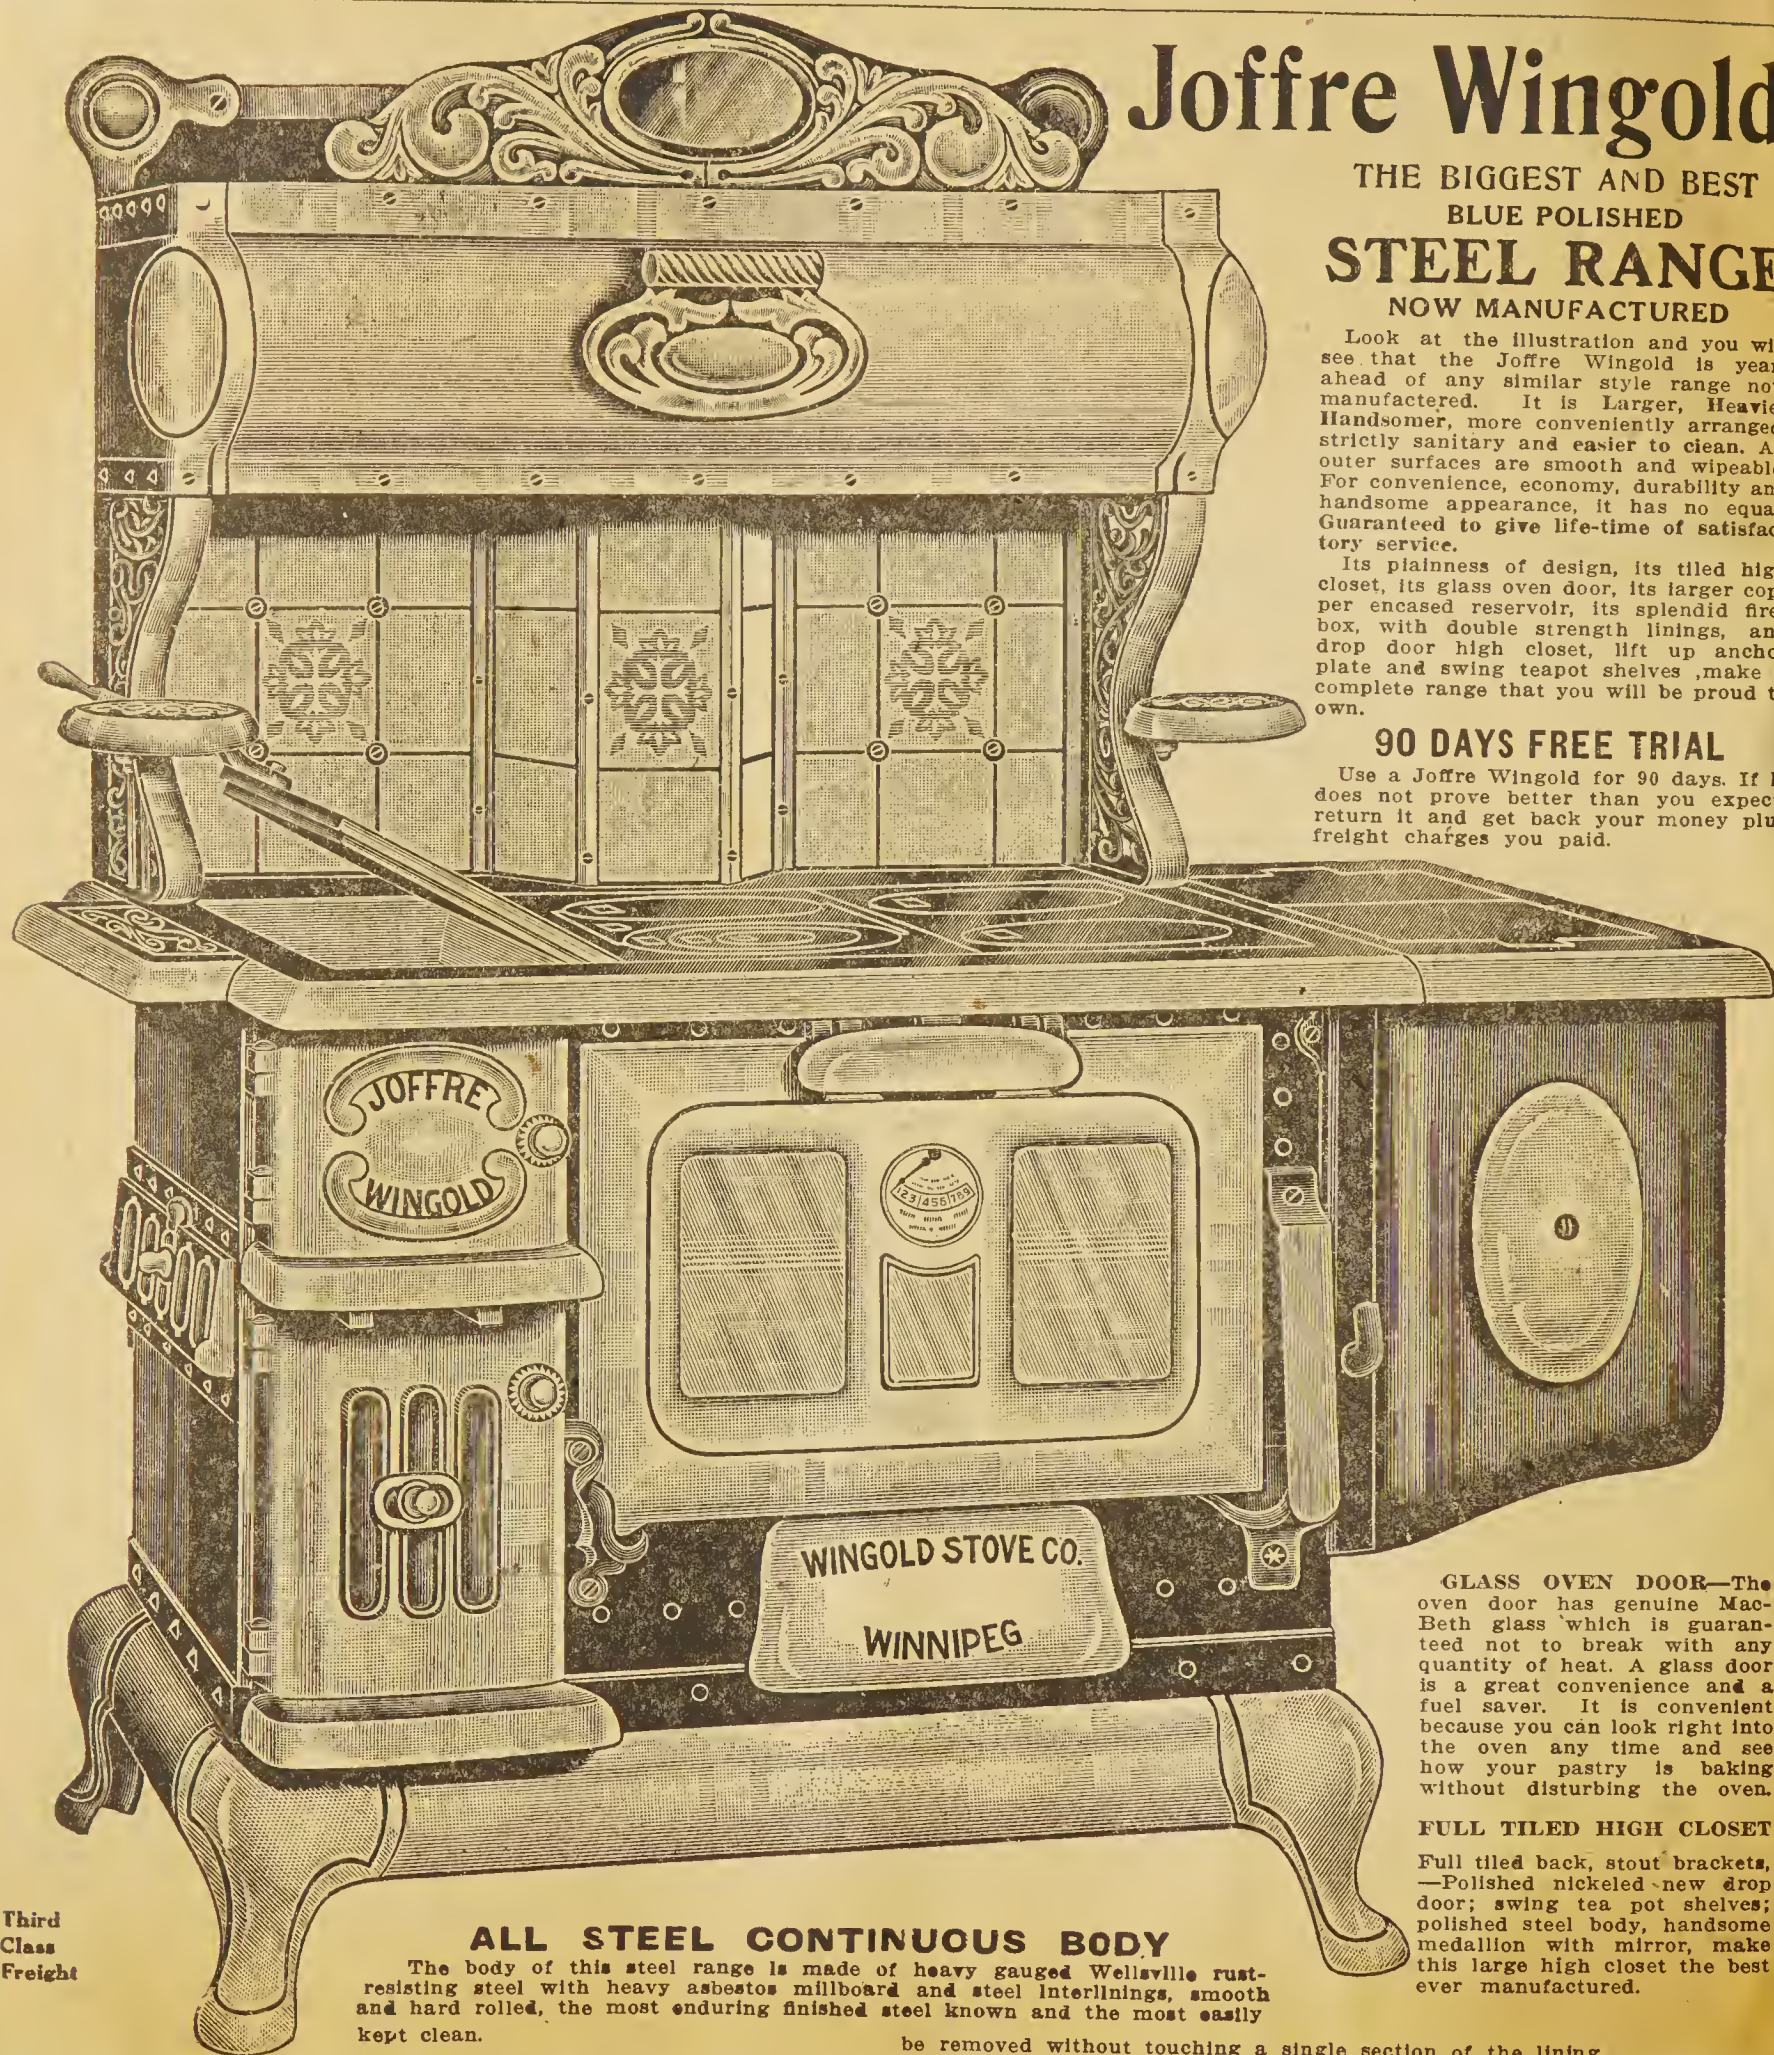

THE BIGGEST AND BEST
BLUE POLISHED
STEEL RANGE
NOW MANUFACTURED

Look at the illustration and you will see that the Joffre Wingold is years ahead of any similar style range now manufactured. It is Larger, Heavier Handsomer, more conveniently arranged, strictly sanitary and easier to clean. All outer surfaces are smooth and wipeable. For convenience, economy, durability and handsome appearance, it has no equal. Guaranteed to give life-time of satisfactory service.

Its plainness of design, its tiled high closet, its glass oven door, its larger copper encased reservoir, its splendid fire-box, with double strength linings, and drop door high closet, lift up anchor plate and swing teapot shelves, make a complete range that you will be proud to own.

90 DAYS FREE TRIAL

Use a Joffre Wingold for 90 days. If it does not prove better than you expect, return it and get back your money plus freight charges you paid.

Third
Class
Freight

ALL STEEL CONTINUOUS BODY

The body of this steel range is made of heavy gauged Wellsville rust-resisting steel with heavy asbestos millboard and steel interlinings, smooth and hard rolled, the most enduring finished steel known and the most easily kept clean.

Weight The Joffre is one of the heaviest ranges built. Every casting is well braced, strong and rigid and the weights here will give you some idea of the kind of material that is used in this grand range.

Fuel Metal linings with a combination duplex grate enable you to burn hard coal soft coal coke or wood, and do it perfectly. It is equipped with plate top, the best top in existence, and the lids and centers are as heavy as are ever used. They are strengthened and braced so that breaking or warping is an impossibility.

Grates and Linings. The Joffre Wingold is equipped with the heaviest grates and linings used. They are ventilated so as not to burn out, are rigid, braced and reinforced to prevent warping. Our patent combination duplex grates can

be removed without touching a single section of the lining.

Oven The oven is square and roomy, equipped with heavy oven shelf, and the oven bottom is so well braced as to prevent the possibility of its warping. The oven door is of the drop type, spring balanced and equipped with oven thermometer. No amount of expense has been spared in providing the most perfect type of oven and we guarantee it to be an absolutely perfect baker in every respect.

The Nickel Base. The base is extra large with full nickel front, and is of rich design, no carvings to catch dirt. Your stove is perfectly safe on this base.

The Reservoir. has extra large, wide cast front, black enameled covers, heat regulated by damper, has a capacity of 24 quarts. Made of copper.

GLASS OVEN DOOR—The oven door has genuine MacBeth glass which is guaranteed not to break with any quantity of heat. A glass door is a great convenience and a fuel saver. It is convenient because you can look right into the oven any time and see how your pastry is baking without disturbing the oven.

FULL TILED HIGH CLOSET

Full tiled back, stout brackets, —Polished nicked new drop door; swing tea pot shelves; polished steel body, handsome medallion with mirror, make this large high closet the best ever manufactured.

Clipper Wingold

**A Big Full-Sized Family Range
at a Price Which Defies Competition**

The Clipper is not the shadow of a range, like some, but is heavily constructed of best materials with a view of giving many years of satisfactory service.

If you are going to buy a medium priced range, order the Clipper and place alongside of any range offered by other mail-order houses, costing \$8 to \$10 more, and if you do not find it superior in every respect and if you are not convinced it will last longer and give you better satisfaction, return it to us and get your money, together with freight charges you paid. More than five thousand now in use giving satisfactory service. If the Clipper does not please you, we don't want you to have it.

BODY AND OVEN made of extra heavy steel, asbestos lined and reinforced with metal covering.
WARMING CLOSET is nice and roomy. Just the right height; has a balanced door.
COOKING TOP, covers, and top, are made of the highest grade grey iron; has 6 solid 9-inch lids; size of top, 42-in. x 26 in.
OVEN is a perfect baker. Does its work quickly and evenly with little fuel. **OVEN DOOR** opens even with the oven bottom, forming a shelf. Size of Oven, 19x18x13 inches.
THE FIRE BOX has heavy cast linings, is adapted for all kinds of fuel, and has extended pouch for extra long wood. Heavy Fire Back, well ventilated, to ensure long life. For wood 22 ins. long, 8 ins. wide and 9 ins. deep.
THE GRATES are of the duplex pattern and can be changed from coal to wood by simply turning half way with the shaker. The ash pit is deep and is fitted with ash chutes, compelling all ashes to fall into a large size ash pan.
SMOOTH SILVER NICKELED TRIMMINGS are another feature that the housewife cannot fail to appreciate.
THE COPPER RESERVOIR is encased, which ensures durability and good heating. Holds five gallons.

HEIGHT, FLOOR TO TOP OF BACK GUARD ON WARMING CLOSET, IS 60 INCHES; HEIGHT, FLOOR TO COOKING TOP, IS 30 INCHES; LENGTH OF FIRE BOX, FOR WOOD, IS 24 INCHES; SIZE OF FIRE BOX, FOR COAL, IS 18x9x8 INCHES.

Emery Ground and Polished Cooking Top needs no blacking or polishing. Is built heavy, strong and reinforced so as to stand unlimited wear of daily use. There are five Solid Lids, one Sectional or Three-Ring Lid. The Key-Plate over Fire-Box is supported by a strong iron post which prevents any sagging that might occur as the result of constant intense heat.

Fire-Box is the Latest Improved Pattern. It is made of the highest grade of cast iron. The fire linings are made in sections. Will outlast all other kinds and can be replaced, a section at a time, when necessary.

Duplex Grate is the only grate ever constructed that will permit the use of all kinds of fuel without changing the grate.

Sure-Bake, Big Capacity Oven is broad, deep and high. Square type and ventilated. No better baking can be done anywhere. Entire inside of Oven is coated with Aluminum Finish. No dark corners.

Perfectly balanced. Drop Oven Door opens flush with oven bottom, form-

ing convenient shelf on which you can turn heavy pans without lifting. This door is strong and unusually attractive with a wide Nickel Plated Band, including the handsome White Enamel Panel.

Oven Thermometer, which is accurate and durable.

Dampers are easy to operate. Give perfect control of the fire.

Reservoir Casing is made of the very best cast iron and will not rust out from steam or moisture. This is a very important feature. Reservoir Tank is made of copper. The tank is removable and holds six gallons.

Warming Closet is strong and carefully built, and has the new drop door which opens downward and forms a wide shelf. Warming Closet has Nickel Plated End Brackets. It is fitted with a joint of 7-inch pipe. Patent check draft.

Leg Base is built substantial and strong. Front base strip and legs nickel-plated.

The Oil Stove Success of the Decade

On the Market less than 10 Years, 150,000 in Daily Use.

MAKE KITCHEN WORK

A POSITIVE

COMFORT and PLEASURE

Buy the WINGOLD WICKLESS KEROSENE [Coal Oil] RANGE with Oven and Thermometer

Every woman enjoys a stove that will do perfect cooking and baking without trouble or worry and for this reason she should have one of these Wickless Coal Oil Ranges. It will do all that a coal, wood or gas stove will do at much less cost and just as well. In addition, it is ready at an instant's notice.

LIGHT A MATCH, LIGHT THE RANGE, IN A FEW MINUTES OVEN IS READY TO BAKE AND RANGE IS READY FOR USE.

Think of doing a big day's baking and cooking IN A COOL KITCHEN in the dead heat of summer with a hot fire burning all the time. That's what this stove does. Makes kitchen work a positive comfort and pleasure. TRY IT IN YOUR OWN HOME THIRTY DAYS. If it fails to fulfill every expectation, you can have your money back, together with freight charges.

ITS DISTINGUISHING FEATURE IS THE OVEN

This important feature has been very carefully constructed, the double burners below it give ample heat for the most difficult baking. The heat is evenly distributed, making it possible to roast perfectly and bake the most delicate cakes brown, top and bottom. It is not necessary to keep turning articles around which are being baked or place them top down to bake through. No oven ever baked more evenly or satisfactorily.

OVEN THERMOMETER—A great convenience and a wonderful fuel-saver.

DOUBLE RESERVOIRS—The reservoirs hold $4\frac{1}{2}$ quarts each and may be removed for filling without extinguishing the fire, as sufficient oil remains in the lower reservoir to temporarily feed the flame.

ADJUSTABLE CABINET SHIELD in front of burners can be easily lowered for lighting burners and protects the flame from strong draughts.

WARMING SHELF is built with warm air flue running to the top of the shelf, which makes it possible to keep anything desired thoroughly warm, as shown in illustration. Shipping weight, 120 pounds.

The "EVER READY" WINGOLD BLUE FLAME WICK OIL STOVE.

Economical and convenient the entire year.

Indispensible Summer or Winter.

Burns Kerosene (coal) oil--the cheap, convenient fuel

SUPERIOR CONSTRUCTION

There are many points of superiority in our "Ever Ready" Wingold Stove which make them leaders in quickness and economy of operation. Here are a few of them:

- 1—SHORT BLUE ENAMEL BURNER CHIMNEY. The heat does not have far to travel. Less oil is used.
- 2—CHIMNEY diameter full 6 inches. Gives highest and largest flame.
- 3—HIGH FLAME almost the minute burner is lighted.
- 4—ENAMEL CHIMNEYS easily lifted and replaced by Chimney Lifter. No soiling hands as where you have to touch the chimney itself.
- 5—WHEN CHIMNEY IS LIFTED, the wick is fully exposed for cleaning. No flame spreaders to be removed.
- 6—BRASS BURNERS—can never rust. Built to last a lifetime.
- 7—COOKING can be placed directly over center of flame.
- 8—STOVE OPERATES at very low cost for fuel.

Save Time and Lessen Your Work

Save the time you now spend bringing in coal or wood and carrying out ashes. Strike a match, light the burners of your "Ever Ready" Stove. You will have immediate, steady, even heat with no waste of time or hard work. Could anything be easier?

You May Pay a Good Deal More, but You Can't Buy a Better Stove.

You can't buy more comfort and convenience at any price. You can't secure more satisfactory baking and cooking qualities in any range. No matter what fuel you use, you can't operate any other stove on any other fuel nearly as cheaply as you can the "Ever-Ready" Wingold on common kerosene oil.

There isn't a necessary feature that's omitted. You'll find features and advantages about these Ever-Ready models that are found on few other stoves of the kind. The short, direct-flame burner is a big time and fuel saver. Don't overlook this one feature—it keeps the oil from seeping and creeping all over the burner while the stove is not lighted. This is one of the features that keeps it so clean and sanitary.

Details of Construction

Cooking Top is just a convenient working height from the floor. It large enough so your vessels are not jammed together.

Polished Brass Burners will never rust, cannot leak as they are drawn seamless. These burners produce a clean, intense Blue-Flame that is free from soot, smoke or odor. The flame can be turned high or low as desired. One gallon of oil will run a burner for 20 hours at full flame.

Burner-Chimneys are steel, heavily Turquoise Blue enameled; they are rustproof, sanitary and easy to clean. They are short and bring the flame directly against bottom of cooking vessels. They require less oil to operate than if the heat had to travel up a long chimney.

Our Patent Chimney Lifter allows the chimneys to be lifted and replaced without touching with your hands. When lifted the wick is fully exposed for quick lighting or cleaning. The Lifter holds chimney up until you are through, leaving both hands free. When the stove is not in use, all Chimneys should be kept raised off the burners.

Your fuel supply is in plain sight. No guessing whether you have enough. This Tank is firmly braced and removable for refilling. Holds one gallon of oil. No danger of overflowing.

Cabinet High Shelf is firm and steady. It is finished with Black Enamel, nicked trimmings. The inclosed back keeps grease from spattering on the wall.

Two Burner Oil Stove Ovens, with Glass Window and Blue Enameled Panel

Our Perfect Baking, Ventilated, Heat Retaining Ovens. We furnish them with a glass Panel or Solid Door. These ovens will do your baking as well as the oven of any coal or wood range.

Articles to be baked constantly in sight. Insures against burned cake, pies and bread. Outside measures 21 $\frac{1}{2}$ inches wide, 18 $\frac{1}{2}$ inches high, 13 $\frac{1}{2}$ inches deep. Weight, crated, 27 lbs. Can be used over one or two burners. No. 823—Two Burner Oil Stove Oven ... \$3.65

WINGOLD Kitchen Cabinets ARE UNEXCELLED

This is one of the most Practical Kitchen Cabinets Man has been permitted to manufacture. Follow the arrows to each distinguishing feature and then stop for a moment and consider what a great convenience one of these cabinets would be in your home.

MODERN 20-TH CENTURY IDEAS HAVE NOW ADVANCED TO THE HOUSEHOLD, AND THE KITCHEN CABINET IS PLACED IN THE FRONT RANK OF PROGRESS. IT IS THE HANDIEST MOST CONVENIENT AND THE GREATEST LABOR-SAVING DEVICE EVER CONSTRUCTED FOR THE HOUSEWIFE'S USE IT SYSTEMATIZES THE ENTIRE KITCHEN. GREATLY LESSENS THE NUMBER OF STEPS, BRINGS EVERYTHING NEEDED IN THE KITCHEN USE AT YOUR FINGER TIPS AND IS AS ARTISTIC A PIECE OF FURNITURE AS IT IS PRACTICAL AND USEFUL.

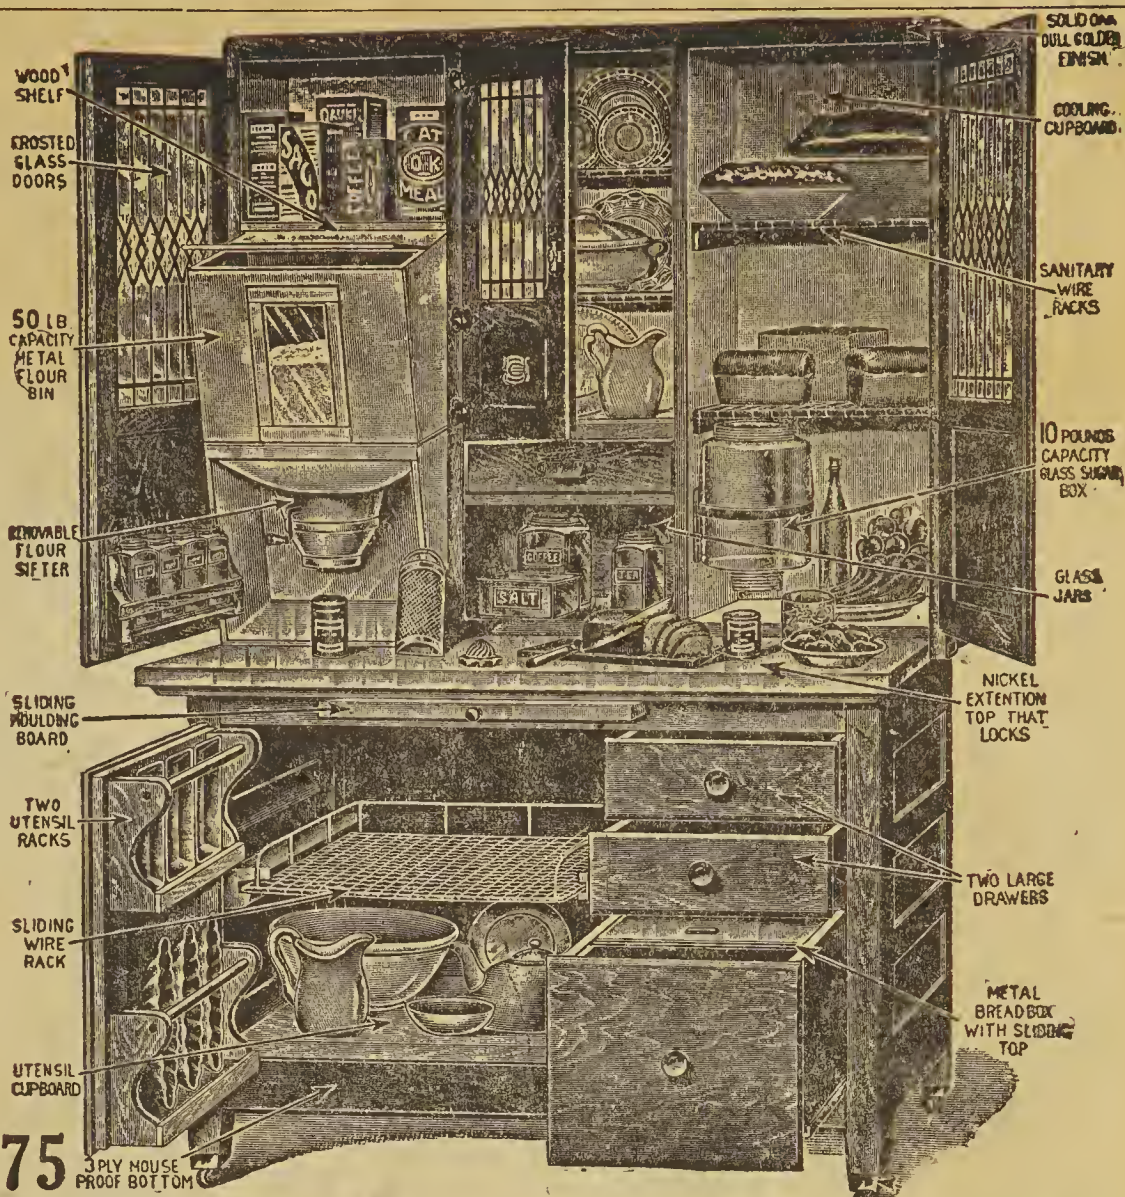

Its Features We ask you to study carefully the special features of this cabinet, enumerated by the arrows in the illustration. Then compare these features with what any other firm offers you at this price. We want you to note particularly the white enameling. This enameling consists of four deep baked coats and is distributed throughout the interior of the top with the exception of the lower centre compartment. Note the sanitary wire shelves, the 50-pound capacity metal flour bin—all over—also the nickeline extension top that locks automatically, whether extended or retracted.

The Construction is of solid oak throughout, finished in a smooth, high golden color, in the rich dull finish. Has 10-pound capacity glass sugar bin, 6-piece glass canister set with wire rack, consisting of coffee, tea, salt, pepper, ginger and cinnamon jars. One metal cake and bread box, one sliding shelf.

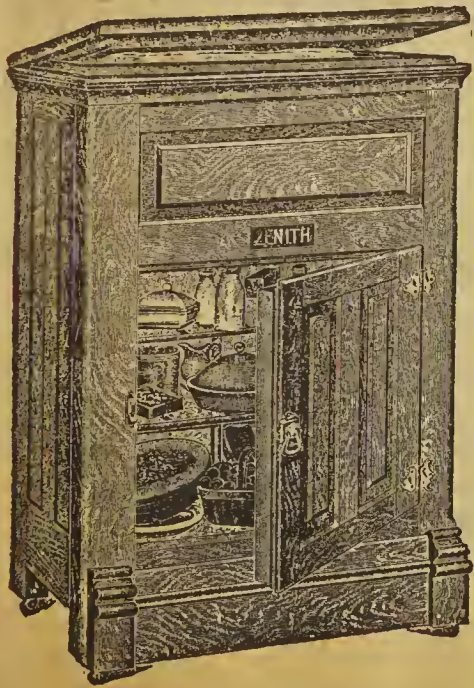

The Dimensions This cabinet measures 69 in. from floor to top, is 42 inches wide, the base is 31 inches from floor and has mouse-proof bottom. The doors have brass-trimmed hinges and catches, wood panels.

THIS BIG PEDESTAL TABLE

Is Priced Less than its True Value

The average man's money is expected to go a long way and if you buy this Dining Extension Table you will realize you are getting the limit of value. Here is where price and quality talk louder than anything we can say.

We're not lower in price simply on some things, but on everything.

Throughout this entire catalog the prices are absolutely lower, quality considered, than those of any other concern in the country.

THE BUFFET is a recent creation of medium size, strikingly handsome and suitable to the requirements of many homes. Top of base is 46 inches long by 20 inches deep, surmounted with pediment containing French plate mirror 32x10 inches, two cutlery drawers, one long linen drawer and large cupboard fitted with two art glass panelled doors.

PEDESTAL EXTENSION TABLE has massive feet, firmly attached to large square pedestal; top is 45 inches in diameter with rounded edge and wide box rim, extends to 6 or 8 ft. Smooth running slides which hold the top firmly when extended.

CHINA CABINET correctly matches buffet. It stands 60 inches high,

is 28 inches wide and 17 inches deep. Fitted with double strength glass door and ends; three shelves will accommodate the dishes.

THE DINING CHAIRS are made in same factory and match rest of the suite in design, color and finish. Notice the stout back posts, which extend full length. This is genuine dining chair construction and not a flimsy kitchen chair worked over to answer the purpose of a diner. Solid seat, brace arms and extra stretchers make this a diner that will stand hard everyday service. Set consists of one arm and five side chairs. Will furnish with pad seats covered with brown or black Pantasote for \$2.75 per set extra.

Bed Couches Extension and Regular Couches

OUR LEADER

We urge caution when ordering a couch. There is room for great deception in the manufacture of couches. There are those who are price mad and have no thought of producing a couch for real service. When you buy a Wingold Couch you can depend on getting a couch which will give you good service for the price you pay. There are certain fixed costs in the manufacture of couches which determine the true value of the article, and when you get below these costs you produce a worthless couch. After comparison we come to you with the firm belief and knowledge that for the prices asked the couches shown here represent the greatest values obtainable.

\$10.75 Windsor Bed Couch

No. 13-1—The Windsor Combination Wardrobe and Bed Couch. It is a bed, a wardrobe and a couch. The frame is made of seasoned hardwood and put together in a very substantial manner. Has full set of oil tempered steel springs securely tied, insuring service as well as comfort. When opened to be used as a bed, there is a full spring mattress covered with best quality ticking. The size of bed is 72 inches long by 46 inches wide. The wardrobe will be found very useful for storing bedding, clothing, etc. It opens full length, is 6 inches deep and 22 inches wide.

Stylish and Comfortable

The Finish of these pieces is carefully applied, color rich brown, fumed.

The Cushions are covered with cretonne and filled with clean, new, Genuine Cotton. Especially desirable patterns, which harmonize artistically with the finish you select, are used. These cushions add so much, both to appearance and comfort, that you should by all means, order them with this suite.

Reed furniture of this type is now considered quite the thing for up-to-date homes, and it possesses many advantages over any other. It is strong, yet flexible enough to be more than ordinarily comfortable. It does not easily scratch or mar, is light and inexpensive.

The frames of the pieces in this suite are made of select hard maple, strongly braced. Choice reeds are woven by hand to form the symmetrical, pleasing design.

This Chair has become immensely popular at fashionable seaside resorts, as well as with thousands of comfort-loving home people.

Size of seat, 22x22 in. Height of back, from seat, 26 in. Shipping weight, about 30 pounds, with cushions.

Reed Suite Very attractive design

You should, by all means, order these pieces with the cushions, as they look much more attractive in this way, and cost but a trifle more. The cushions are filled with Genuine Cotton, and covered with cretonne in designs and soft colorings, which harmonize perfectly with the rockers, and with other furnishings of the room, in which they may be placed.

Reed furniture of this type, is suitable for any room in the house, and probably no furniture you could buy for the same amount of money, will give as much in comfort, durability, and satisfactory service from every standpoint. This suite is especially big value, as you will agree when you see it.

Entire back and sides woven diamond mesh. Woven apron around all sides. Frame of hard maple, wrapped with rattan. Big roll arms and back.

Size of seat, 20x19 inch. Height of back from seat 24 in. Shipping weight, about 23 pounds.

Wingold Imperial Nature's Natural Luxuriant Layer COTTON FELT MATTRESS

\$13.95
In Full Size

GUARANTEED ENDURING BUOYANCY FOR A LIFETIME OF REFRESHING SLUMBER

WINGOLD IMPERIAL MATTRESS (as shown by illustration) is made of natural pure white cotton woven into thick felted layers. All of the original life and buoyancy of the cotton is still there. **ROUND CORNERS, FANCY ART TICKING.**

Covered with beautiful blue color French Art ticking, guaranteed not to stretch. Has a full 4-inch border with extra stitching through the centre which holds the border firm. Tufting is biscuit shape. Has Imperial roll edge, which maintains the shape and adds greatly to the appearance of the mattress. Fitted with handles for convenience in handling and turning.

The filling is new, fully matured cotton (built, not stuffed) of even layers of soft cotton felt, pure, germproof and non-absorbent. This mattress never requires remaking, a bath in the sun every two or three weeks is all that is necessary to keep it in first class condition.

As we spend one-third of our life in bed, it pays to exercise care and judgment in mattress selections. Sound, healthful, refreshing sleep depends greatly on the quality of the mattress. Sleep on a Wingold Imperial. It gives you every possible comfort.

matically.

\$22.95

This Sewing Machine has four drawers, drop head, apron front, automatic lift and is of the easy running, ball bearing type. Cabinet is solid, golden oak throughout in gloss finish, with the exception of the lid, which is of genuine quarter-sawn oak veneer. Inlaid tape measure on cabinet helps operator measure goods without rising. Cabinet is prettily designed, having swell front table, brought out in nicely figured oak. Exceptionally strong construction assured, by the fact that each wooden part is fastened independently or screwed directly to iron stand.

The Stand The improved Wingold "B" is equipped with new, beautiful, strong, French leg stand made of very best gray iron. Lines are sweeping and graceful. This stand is very easily dusted. Is given high luster finish of black Japan. Steel Pitman (or driving rod) is used on the Improved Wingold not the old style, easily broken, hard running, wood Pitmans found on many higher priced machines than ours. No keys required. When you turn back lid, drawers unlock automatically; when head is lowered, drawers lock securely.

Patent Steel Drawer Guides

Steel drawer runners instead of old style, fragile drawer racks. These steel drawer runners are fastened directly to stand. Eliminates drawer sticking. Short steel bar, automatic lift is absolutely fool proof. Brings the head frame up flush with table in firm position to do away with vibration. Has high balance wheel reducing exertion needed for operating machine also makes it lighter running. Equipped with fine sewing head with upper tension on top of arm. Will satisfactorily handle all classes of goods.

**GUARANTEED FOR
20 Years**

THE HEAD

measures 5½ inches under arm. Beautifully colored in gold, enamel surface. Has silver, etc., upon self-threading shuttle, self-setting needle, bed plate, stitch regulator, automatic bobbin winder, loose pulley wheel for winding bobbins, self-adjustable shuttle carrier. Upper and lower tensions. Full set of Greist steel nickel-plated attachments and accessories furnished free. Shipping wt. about 125 lbs.

Here's The Improved Automatic Locking Drawers No Keys Required

YOU WILL SAVE

the price of this beautiful automatic life, ball bearing convenient and light running machine in your home the first year through the many things that it will produce for you. Its time, temper, labor saving conveniences that you will so thoroughly enjoy are listed below. They are of great significance to the woman who does her own sewing, as you will appreciate after once trying the Improved Wingold C. Remember, that in purchasing it, we send this machine to you upon approval subject to our guarantee of satisfaction, or your money back.

Improvements constitute the following; the automatic locking drawers eliminate the necessity of using keys on this machine; it has steel drawer runners on which the drawers slide easily and smoothly without sticking; short steel bar automatic lift raises and lowers the head automatically; the highly japanned French leg stand is wide, strong, beautiful in design, and being of an open pattern is very easy to dust and keep clean.

Other Features are the steel pitman driving rod, which is used in place of the old fashioned wood Pitman, which breaks easily, and is far from satisfactory in results; the ball bearings insure easy running; this easy running feature means a great deal to the woman who does a large amount of sewing, as it transforms drudgery into a pleasant occupation, as well as the ease with which machine operates.

GASOLINE, KEROSENE, LUBRICATING OILS AND GREASES

DON'T GET CAUGHT ON A CHEAP STEEL BARREL—THEY SOON LEAK. Our STEEL BARRELS will stand shipping and WILL NOT LEAK.

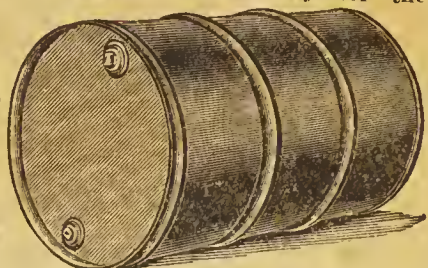

OILS

Made of 16 gauge material. Will stand considerable rough handling, wagon hauling, etc. Are far superior to soldered tanks for storing oils. Seams and joints are all welded, making them practically as strong as

any other part of the tank. The corrugation in centre permits easy rolling when loaded. The brass faucet can be attached to end of barrel to draw off contents. When shipped empty takes 1½ times first class freight; filled with oil takes fourth class rate. Weight 70 pounds. No. V48—Welded Steel Barrel, each\$6.75

BUY A WELDED STEEL BARREL To Store Your Oil in. You Will save Enough on Evaporation and Leakage to Soon Pay for the Barrel.

Capacity 45 Imperial Gallons. All Welded Seams—No Solder Used. Complete with Brass Faucet and Two Connections to Draw off Contents on End.

Save \$1.50. Order a barrel of oil shipped in a steel barrel and we will allow you a discount of \$1.50 on any oil listed on this page, except gasoline and engine kerosene. On these two items an extra charge is made for wood barrel.

COAL OILS

The quality of our products will satisfy you. You not only get the benefit of our low prices, but you get the benefit of High Grade Standards.

No. E701—Old Homestead Illuminating Kerosene (Coal Oil)—An excellent quality, several points above government requirements. No charge for barrel. Per 45 gallon barrel\$10.25

No. E702—Reliance Brand—one grade higher than Old Homestead. Gives a nice white light without smoking your lamp chimney. Per 45 gallon barrel (no charge for barrel)\$11.25

No. E703—Excelsior Brand—Strictly high grade oil, sold in most stores as best grade; gives a steady white light. No charge for barrel. Per 45 gallon barrel\$11.75

No. E704—Burnbright Brand—The very highest quality obtainable; gives a steady white light, burns longer and will not smoke chimney like the lower grades. No charge for barrel. Per 45 gallon barrel\$12.75

WINGOLD WASHERS

MAKE EASIER AND
SHORTER WASH DAYS
The HIGH SPEED Washer

Wingold Automatic Ball Bearing Washer

\$9.85

STEEL
FRAME

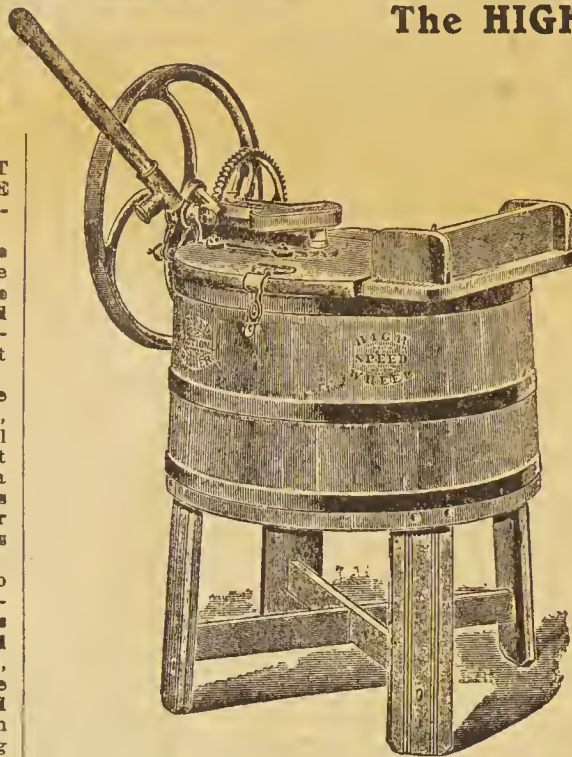

BALL
BEARING

**ABSOLUTELY THE BEST
AND HIGHEST GRADE
SWING WASHING MA-
CHINE MADE**

The tub swings on large steel ball bearings. These ball bearings carry all the weight, and are arranged in a steel cup so constructed that they cannot get out of place.

By grasping the handle and swinging it to one side, the coil tempered steel springs stop it and start it back the other way with a quick reverse motion, as the tub travels the other way another spring swings it back again.

At each swing of the tub the boiling water by centrifugal force and suction is forced through every thread and fibre of the clothes, cleaning them with three times the rapidity, and more thoroughly than any other way, and doing it with very little labor. Shipping weight (crated), 100 lbs. Second class

**RUNS EASIER WITH
FULL LOAD THAN
OTHER MACHINES DO
EMPTY**

More than a thousand different kinds of washers have been made and sold, but none have given better satisfaction than the High Speed. It runs easier and washes faster than any other washer of the dolly type.

Double thickness overlap lid. When open allows plenty of room for operator to put in and take out clothes.

Large tub made of Louisiana Red Cypress. Plenty of room for large sized wringer. The dasher is fitted with our new device for preventing clothes from catching and tearing.

We offer the High Speed as the most efficient easiest

running and desirable washer ever placed on the market. It runs quietly and embodies the desired high speed with the least possible effort. Shipping weight (crated) 95 lbs. Second class freight.

No. 65—High Speed Washer\$8.50

Wingold No. 1 Ball-bearing washer\$9.85

New Century Washing Machine

\$9.25

Our New Century Washing Machine is the wonderful washing machine, very much better than washing machines widely advertised and sold by others at \$12 to \$15. Our new reverse spring motive power and roller bearing tub does the work. Washes anything from the most delicate lace to the heaviest blankets and rugs, and will not injure the finest fabric.

New Century, without wringer stand attachment, height 31½ in.; depth of tub, 13¼ ins.; diameter of tub, 25½ in.; weight, crated, 60 lbs.

New Century Washer, complete with wringer stand attachment\$9.25
The above prices do not include wringer.

Clipper Washer

\$7.50

A High-grade direct Drive
Rotary Washing
Machine usually
Sold at\$10.00

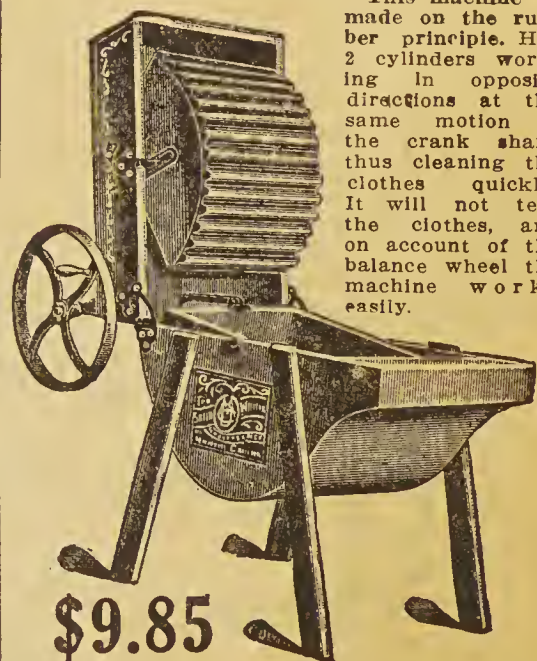

This is the best rotary fly wheel type of washer on the market. It runs easily and does good work.

The corrugated tub is made of cypress, banded with three steel hoops. Two ply steam tight cover, with lock; encased gears. The Dolly has full ¾ movement, with automatic reverse, tub stand and gear casing nicely finished.

No. 22—Clipper Wingold Washer \$7.50

Sunlight Washing Machine

This machine is made on the rubber principle. Has 2 cylinders working in opposite directions at the same motion of the crank shaft, thus cleaning the clothes quickly. It will not tear the clothes, and on account of the balance wheel the machine works easily.

\$9.85

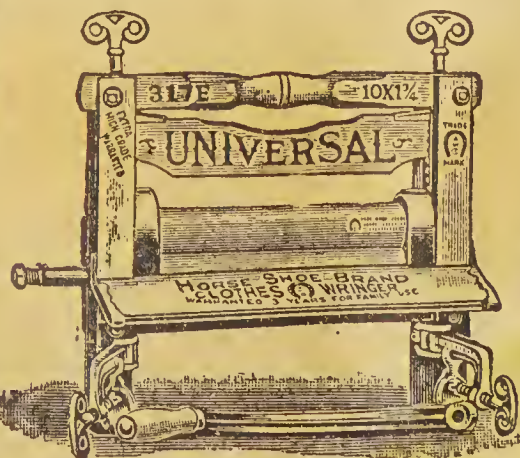

Made of selected Louisiana cypress. Has heavy non-rusting galvanized bottom and all the iron parts coming in contact with the water are heavily galvanized.

BALL BEARING WRINGERS

\$4.65

Protection Wood Frame Ball Bearing Wringer. Selected hard maple frame, varnished natural finish, with steel spiral pressure springs and improved guide board for spreading clothes. All metal parts heavily galvanized and will not rust. Guaranteed for three years. Size rolls, 1½x11 inches. Weight (boxed) about 26 lbs.

No. 641, Three-Year Guaranteed Wringer \$4.65

FIVE-YEAR GUARANTEE WRINGER, with ball bearings, easy running, and one of the finest and best Wringers made. It has those old-fashioned elastic rubber rolls, such as were put in Wringers years ago, which resist wear and which give good service in a family for from six to twelve years. Full sized, not skimmed to make price appear low. Guaranteed for five years. A great improvement over the old style. Size of rolls, 1½x11 in., made of extra high grade rubber. Enclosed cogs, spiral pressure springs. Improved guide board. No. 6541—Five-Year Ball-Bearing Wringer ... \$5.65

Silent Ezee-Go Hand or Power WASHER

Mechanically Perfect in Washing Machine Construction
A Quiet, Easy Running Machine for Rapid Work.

SPECIAL FEATURES

MACHINE CUT GEARS—No friction, no noise.

LARGE FLY-WHEEL—Powerful momentum. Washes large quantity of clothes at one time, without undue effort.

HAND LEVER OPERATES from two positions.

NEW PATENT DOLLY—The most important improvement in years. (See illustration.) This Dolly works down amongst the clothes and forces them through the water until they are thoroughly cleansed.

LOUISIANA CYPRESS TUB, large size; corrugated inside and fitted with stout hoops and braces.

CONSTRUCTION

The Tub and Stand are made of thick select red cypress carefully machined and thoroughly held together by wide steel hoops. Double thick top with overlapping joints, firmly hinged to tub. Water-tight construction. Combined Wringer and water board which drains all water into tub. Entire tub, cover and stand carefully varnished.

MECHANISM

Ordinary cheap hand or power washers are fitted with cast gears, with the result a hard-running, noisy machine. The **SILENT EEZE-GO WASHER** is equipped with all carefully machine cut gears, this makes it run easily and quietly.

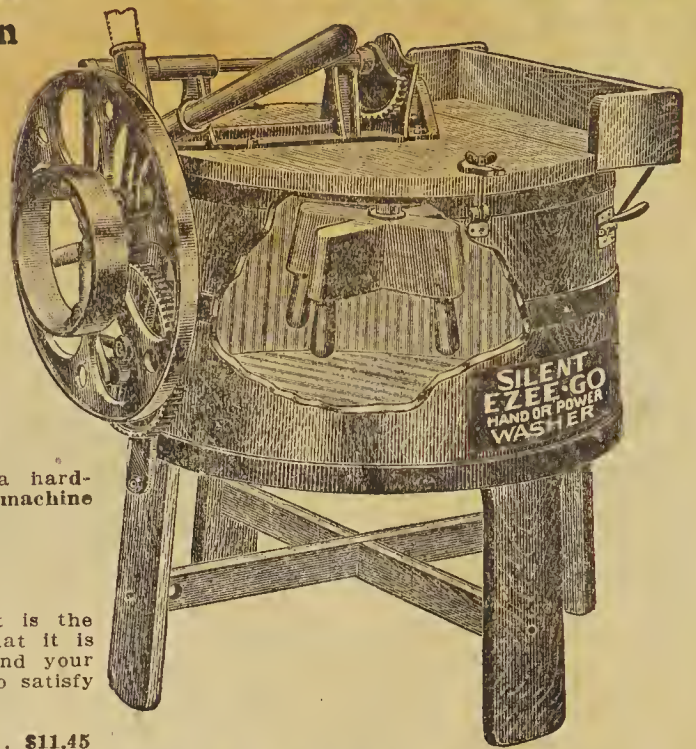

It will last longer and wash faster and wash a larger quantity of clothes at one time.

Belt Wheel for Power use attached to fly-wheel.

THIRTY DAYS TRIAL OFFER

Try a **SILENT EEZE-GO WASHER** for 30 days and if you are not satisfied that it is the smoothest running combined hand or power Washer you have ever seen, and convinced that it is superior to anything similar sold elsewhere at \$15 to \$18, ship it back and we will refund your money plus freight charges you paid. We take all the risk and give you ample time to satisfy yourself that it is all we claim for it before you decide to keep it or not.

The **SILENT EEZE-GO WASHER**, shipping weight crated about 100 lbs. Takes first class freight. Price \$11.45

BLANCHARD GAS POWER WASHER —AND ENGINE OUTFIT—

THE DAWN OF FREEDOM

Freedom from the awful slavery or drudgery of wash day, gloom and despair fades away and happiness and contentment finds place—and mother's strength is saved for more noble and useful purposes. Reduces the washday problem to a simple, easy process, which requires no serious physical or mental efforts.

The **THREE POSITION SWINGING BALL-BEARING WRINGER** takes the last lift out of washday. A whole big wash can be done without the lifting or moving a tub.

CONSIDER THESE ADVANTAGES

No. 1—Quick Release Safety Lever on Wringer, prevents accidents and damage to clothes.

No. 2—Safety First; all moving parts encased.

No. 3—Lever at right controls Wringer. It runs forward or backward or remains neutral.

No. 4—Lever on Tub controls Washer. Washer runs independent of wringer or at same time.

No. 5—Wringer Swings to Three Separate Positions, has reversible Waterboard which allows you to rinse and wash as many times as you like.

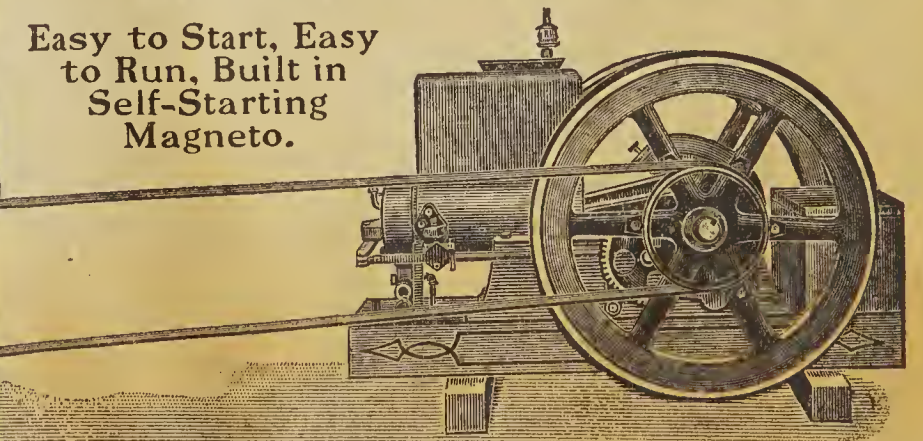

No. 6—A Solid Heavy Large Corrugated Cypress Tub and Stand, double thickness overlapping joint Lid All nicely finished.

No. 7—Mechanism Heavily Constructed, carefully fitted and encased to prevent accidents.

No. 8—Patent Dolly; see sectional view of Silent Ezee-Go. This is the most effective dolly in use.

BEST LITTLE ENGINE IN THE WORLD FOR THE MONEY.

Easy to Start, Easy
to Run, Built in
Self-Starting
Magneto.

ENGINE—THE BEST MONEY CAN BUY

This sturdy Engine is the most dependable and powerful of any ever designed of same dimensions. It is mechanically perfect in material, construction and design. The strong, substantial construction, the perfect fit and perfect alignment of its working parts, gives the maximum of power in marked contrast to the cheap, flimsily constructed engines in which labor and material is skimmed to save cost and where friction and loose joints consume much of the power.

This Engine is built for economy of operation and enduring service. There is no other Engine which measures up to this one in high standard of quality. For Details of Specifications, SEE PAGE 30.

There is no other power washed with quite as many convenient features, and we offer it at a price you can easily afford to pay.

\$57.50

We guarantee it the equal of engines sold as 2 1/2 h. p. No expense has been spared to make the Blandix the best gasoline engine on the market, size for size. Order the Blandix subject to

30 DAYS FREE TRIAL OFFER

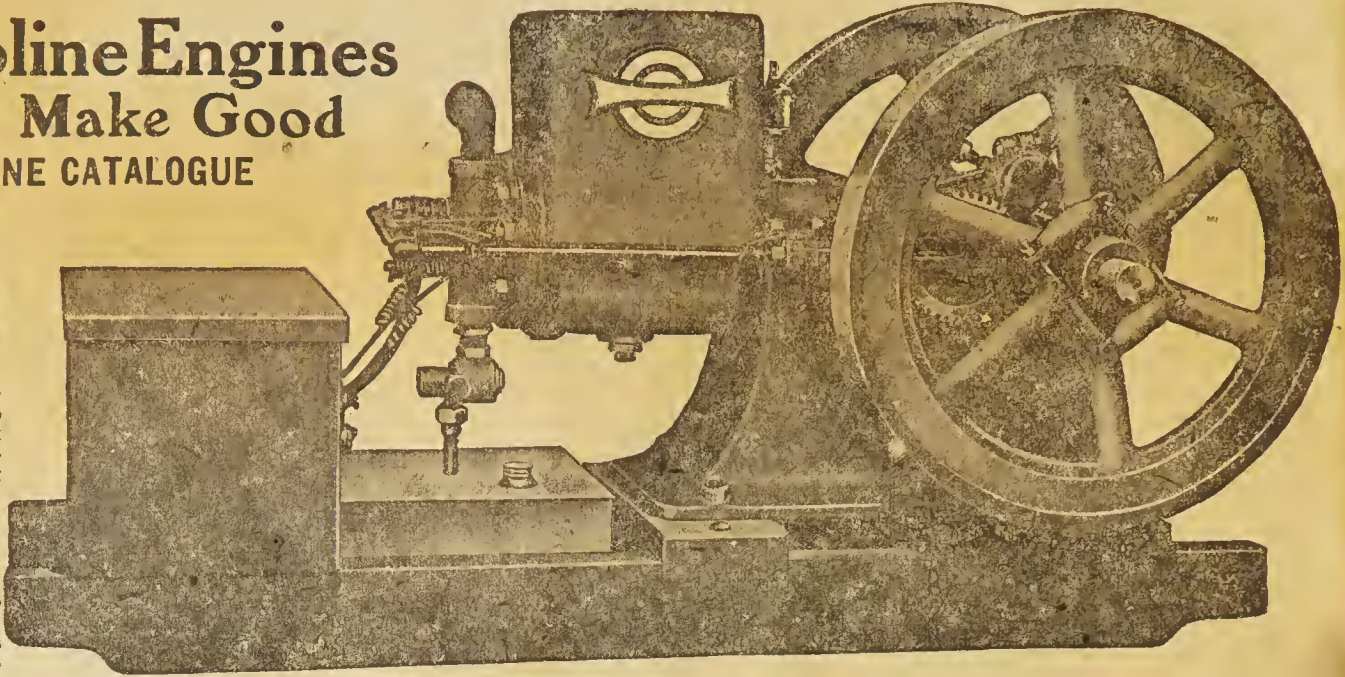

and let it demonstrate its ability to do all we claim before you buy.

It makes no difference, cheap prices or so-called high quality, there is no engine which can stand up against the Blandix for strength, durability and economy.

The owners of Blandix Engines know NO TROUBLE. Their only care is to keep the Blandix Engine supplied with oil and gasoline.

SPECIFICATIONS.

HORIZONTAL—2 1/4 H. P.
1 CYLINDER—4 Cycle Type.
BORE—4 inch. **STROKE**—5 1/2 inch.
SPEED—450 r. p. m. **WEIGHT**—400 pounds.
FLYWHEELS—2 wheels 19 in. diameter. Wt., 40 lbs. each.
MAIN BEARINGS—Set at an angle of 30 degrees.
CRANK SHAFT—1 1/2 in. carefully machined and fitted.
CONNECTING ROD—Of ample strength—fitted with brass bushing at piston end, and copper hardened babbitt at wrist.

GOVERNOR—Is of simple design, hit and miss, of positive action and sensitive. When governor cuts out the charge, it also cuts out the jump spark which increases the life of the battery.

CARBURETTER—of suction type, equipped with needle valve, and automatic air adjustment.

SPARK PLUG—The Never Miss, the best that money can buy.

SPARK COIL—Gives highest efficiency, because of more wire on secondary coil, consequently draws less current.

GEARS—Are machine Cut

CYLINDER—Cast separate from bed. Lugs on the side of Cylinder are extra thick to prevent broken Cylinders.

PISTON—Has three ground rings, carefully fitted to give good compression.

AUXILIARY EXHAUST PORT—In cylinder is a very valuable feature. It relieves the valve of much heat and insures longer life to the engine.

VALVES—Are located in head; of standard poppet type.

BATTERY—Consists of five cells with new style auto connection which will not come loose.

CYLINDER OILER—Is a high grade sight feed cup, easy to adjust and operate.

MUFFLER—Is light, simple and effective.

SKIDS—Hardwood, strong and substantial, on which is mounted engine itself, gasoline tank and battery box.

PAINTING—Is bright and attractive, a good job.

THE WHOLE ENGINE—Is completely set up and wired ready to run when received.

"MAJESTIC" WINGOLD CREAM SEPARATORS

Don't Tamper with cheap quality when you buy a Cream Separator—Get a "MAJESTIC" WINGOLD, it is the only high grade Cream Separator offered at a reasonable price. IT WILL GIVE CONTINUOUS SATISFACTORY SERVICE YEAR IN AND YEAR OUT. It turns easier, skims faster than most other makes, and is the equal in every way to other machines sold in the retail way at \$100 to \$125 each.

Superior Points of Construction that you should Study Carefully

- The "MAJESTIC" WINGOLD is scientifically designed to prevent weaving or vibrating while running. Its lines are graceful and pleasing and convey the impression of solid strength and durability which is confirmed by an examination of its construction in detail. It is tastefully finished in dark blue with artistic transfer decorations in red and gold, and will be an ornament to the finest sanitary dairy.
- 1.—"Low Down" Supply Tank.—The Tank into which the milk is poured is only as high as the waist. It is of the No Splash pattern, so that, no matter how hastily the milk is poured in there can be no splashing over upon the floor.
 - 2.—Crank Shaft is High.—The crank shaft is two inches higher than in most separators. This means that you do not have to bend over so far when turning the crank, as on other machines.
 - 3.—Two-piece Bowl Shell.—With a two-piece bowl shell you can clean every corner of it easily, which is not the case in the one-piece bowl shell on other separators.
 - 4.—Fewer Discs and Larger Capacity.—Our special construction, perfected after years of study. Consists of 30 per cent. fewer discs than other separators and at the same time a greater capacity per hour.
 - 5.—Separable Bowl Spindle.—In all the sizes the spindles are detachable and remain in the machine. Bowls are readily lifted off and replaced.
 - 6.—All Gears and Bearings Self-Oiled. — The oil chamber provides ample oil for every bearing by means of a splash system caused by the gears running in oil.

\$39.75

Ten Weeks Free Trial Offer

YOU HAVE TEN WEEKS' TRIAL, which gives you ample time to test this great "MAJESTIC" WINGOLD SEPARATOR in every way. By skimming the morning and evening's milk daily you will surely be able to decide in that length of time whether or not it fully satisfies you. If for any reason you are not satisfied after a fair trial, just send it back and we will at once refund all money paid, together with charges you paid. We will also allow you a reasonable amount for reboxing and hauling to the depot so that you will be at no expense whatever in making the test.

Our Guarantee of Satisfaction

WE FULLY GUARANTEE THIS MACHINE and allow ten full weeks for trial. We ask you to put it to every test and prove to your own satisfaction that every claim we make for it is true and justified. Whichever size "MAJESTIC" WINGOLD Cream Separator you buy, we guarantee that you will be satisfied in every way with your purchase. We also stand ready at any time to replace a defective part free of charge or to replace a part worn by usage at lowest possible cost. WE GUARANTEE THE "MAJESTIC" WINGOLD TO SKIM AS CLOSE OR CLOSER THAN ANY SEPARATOR NOW ON THE MARKET.

Lower Half of Bowl Shelf

The Bowl

THE BOWL is the most important part of any Cream Separator, for it does all the work for which a Separator is intended. It is in the bowl, which revolves at a tremendous rate that the separation of the cream from the whole milk takes place. We have the most effective type of bowl that has ever been devised.

The bowl of the "MAJESTIC" WINGOLD possesses many improvements in construction not found in other Separators. Every part of the skimming surface of each disc does its proportion of the skimming. The whole milk is fed through the centre tube and flows down to the bottom of the bowl. It is then fed equally to every disc at its outer edge so that each disc gets its part of the whole milk, and does equal work in skimming. Thus no idle discs or corners are left, and much better skimming is possible than in the ordinary method of feeding, which gives too much milk to the upper discs and not enough to the lower, consequently the upper discs, being overfed, do not skim clearly, and cream is lost in the skim milk.

Cream of any density can be obtained, from the heaviest of whipping cream to the thin cream demanded by the city milkmen, by the simple turning of one screw.

Separable BOWL SPINDLE

Ninety-five per cent. of all trouble experienced by owners of Cream Separators is found in the Neck Bearing or Bowl Spindle. Our new Separable Bowl Spindle ELIMINATES all possibility of trouble.

The entire Bowl Spindle remains in the machine at all times. To clean the bowl you simply lift it off the Bowl Spindle, and have a short bowl which is easily handled, and if you should accidentally drop it no harm will be done. If you drop a Cream Separator Bowl with spindle attached, nine times out of ten you will find the spindle bent and your bowl out of balance. This means an expense of \$5 or \$10 to get it put into working order again. Further, the bronze worm wheel is often injured by carelessly dropping the bowl with spindle attached to bowl.

LOOK AT THE SECTIONAL VIEW, which shows how the bowl spindle fits up into slot in the center of the bowl. This is the best method of connection, for it is so carefully fitted that it has all the solidity of a solid spindle, which prevents vibration.

Do Not Under Estimate the Value of this Feature. The more you know about Cream Separators the more you will appreciate what this means. Owners of "MAJESTIC" WINGOLD SEPARATORS do not know what trouble is, their only care is keeping the machine cleaned and oiled. It is always there ready to do its full duty at all times.

Order Early and Make the Greatest Saving

The sooner you get your "MAJESTIC" WINGOLD Cream Separator in operation, the sooner will you begin to get the greatest profit from your cows. Re-

member that immediate delivery of your order for the "MAJESTIC" WINGOLD Cream Separator is guaranteed.

T20-14—"MAJESTIC" WINGOLD CREAM SEPARATOR, capacity 350 pounds of milk per hour, shipping weight 175 pounds.	\$39.75

The Seamless No-Splash

Supply Tanks are our own exclusive pattern and can be obtained in no other separator. They have full rounding sides and a convex bottom so that milk will not spatter, no matter how hastily it is poured in. The top rim of the tank is broad and easily grasped from any position, so lifting handles are unnecessary. Our tanks drain out quickly, are perfectly sanitary and easy to wash.

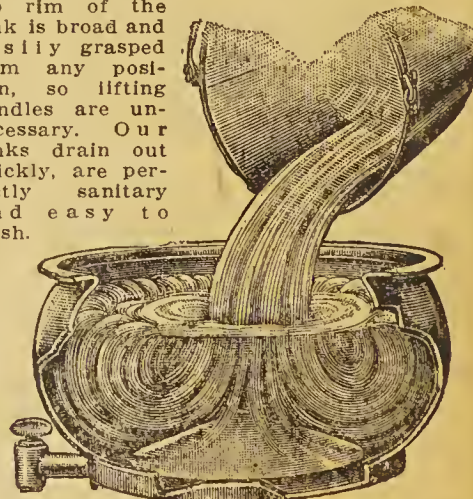

Illustration Showing the Simple Gearing Which Transmits the Power Directly Downward

The Gear

The gearing is the most simple it is possible to use. There is nothing to get out of order. The gears are heavy and wide faced.

fitted in the latest scientific method, which reduces noise and wear to a minimum. There is no waste energy in the simple arrangement as in many separators. The cog-wheels are carefully covered so that there is no chance to catch and injure the fingers or clothing. The cover can easily be removed.

The Wingold Sanitare White Beauty

In the Wingold Sanitare White Beauty Kitchen Cabinet you will find quality of a much higher standard than usually maintained by mail-order concerns. "Price first and quality last" is the slogan of many concerns; but with us—"quality first and price based on true value and small profits." All through this catalog you will find the same High Quality Merchandise that we show on this page. Here, by special attention to display, we try to show you the real quality of Wingold products. The constant increase and growth of our business is due to the fact that we deliver high quality merchandise which gives satisfaction at low prices.

NOT PRICE MAD. Some firms consider price everything, but price without quality has no attraction. Our facilities are large enough, our methods economical enough, to allow the making of lower prices than those of other concerns who attempt to deliver the same dependable, high grade merchandise.

CHOICEST CREATION IN CABINET CONSTRUCTION

Sanitary Snow White Enameled Inside and Outside, Rolling Disappearing Shutter Front, Removable Moisture Proof Metal Flour Bin, Entire Interior of Top Perfectly White Enameled, Glass Sugar and Spice Jars, Double Sliding Shelves in Utensil Compartment, Daily Want List and Kitchen Aids and a Score of Other Features Described Below. All For.....

\$39.75

CONVENIENTLY
ARRANGED TO

Save a Million Steps

On the Inside of the door, which closes in front of the flour bin, you will notice a chart indicating all the needs of an up-to-date kitchen. Opposite this chart is a ticket and change tray divided into three compartments. In this you may keep small change always handy, together with your ice and milk tickets. The doors in the top of the cabinet are neatly paneled. On the door to the right is attached a metal rack conveniently placed to accommodate flavoring extract bottles. Below is a very clever and substantial contrivance for holding a cook book.

The Sugar Jar coffee, tea and spice jars are all the latest type of Colonial glass, fitted with aluminum tops; the sugar bin has an automatically closing rust-proof bottom. The Sugar Bin hangs on a swinging metal ring so that it may hang inside or outside of the top compartment.

All of the glassware is of extra good, heavy quality. It is attractive in design and adds much to the beauty and convenience of the cabinet.

The Drawers in the right hand side of the base are arranged and finished perfectly. The handles on all the drawers and doors, together with the hinges, are attractively copper-plated and of the newest type. They are strong, well shaped, carefully attached.

The Bread and Cake Drawer

is a very important feature, and one that is used to the best possible advantage. It is made of heavy metal with a wood front, the same as all other drawers. It is made with a sliding ventilated top. In this drawer baked stuffs will not must or mold.

The Base of the Cabinet is equipped with many other very attractive features, among them being the sliding shelf for heavy kitchen utensils and the convenient wire rack on the inside of the door, to accommodate pans, lids, and other flat articles.

The Sliding Shelf in the bottom of the utensil compartment is a feature which few other cabinets, if any, have. It is really a false bottom, on which utensils may be placed, and instead of reaching to the back of the cabinet for utensils, the bottom may be withdrawn to any desired distance. In the utensil compartment you will also note a heavy shelf, which may be withdrawn in the same way.

The Construction of this remarkable cabinet is just what you would expect—strictly high quality in every detail. It is carefully selected oak. No wood enters into this cabinet until it is first thoroughly kiln-dried and seasoned. All corners are carefully dovetailed and glued and neatly rounded and finished. The finish is beautiful snow white enamel or golden oak smooth rubbed.

The Flour Bin is made of all metal, with a small glass window, hermetically sealed in front, and through which the flour may be seen without difficulty. The top of the flour bin is made with an air tight slide over lid and the bottom is fitted with the latest type of sifter and cap. When the cabinet is closed, the flour bin is completely out of view. Capacity, fifty pounds.

The Rolling Shutter Front is an entirely new feature. It does away with the inconvenience of doors, which are always sweeping over the work top and getting in the way. This shutter, when up, disappears entirely, and when down makes an attractive fitting front.

The Porcelain Sliding Work Top furnished when desired for \$1.25. This top is made of a heavy steel plate with a deep square edge, enameled with the finest pure white sanitary surface that is procurable. It is as hard as flint and as smooth as glass. This enamel is just like that used in the finest bathroom fixtures. We guarantee it to be proof against heat and cold of any degree. It will never scale. It will never stain, even though put to the test of hot fruit juice. It will show no mark of pot black or any other greasy or colored substance to which it may be subjected in your kitchen. The sliding top is so perfectly balanced on the rollers of the top that it may be drawn out or pushed back with the strength of a finger. It is 42 inches wide and 23 inches deep.

Full Nickeloid Top furnished with Sanitary White Beauty unless specified otherwise. Size 26x42 inches. Automatic lock holds it firmly in position when extended. Fitted with Cutting Board.

The Cupboard in the top of the cabinet is convenient and spacious. Fitted with the latest type of hinges and gravity latch. This cupboard may be conveniently used for dishes or for storing packages of cereals, spices, or even canned fruits and jellies. It is white enamel lined, with a quality of enamel unsurpassed in any cabinet. It will not scale and may be easily cleaned with a damp cloth at any time. Fitted with two wide shelves.

Dimensions Stands 69 inches high; base top 42 inches wide and 31 inches above the floor; mounted on Ever Grip or roller casters. Carefully crated. Shipping weight 275 lbs. Takes first class freight.
